

ABOUT ACCRA, GHANA

Accra Population 2018

Accra is the capital of the Republic of Ghana. It is also the most populous city in the country. The city is one of the most urban in the country, and it has developed significantly since the 1990s with the addition of nightclubs, hotels, restaurants and other buildings. The most recent estimates show that the population of Accra is 2.27 million.

Accra Demographics

One of the most interesting things to note about the demographics of Accra is the high population of younger residents. Approximately 56% of the population are under the age of 24. This trend is not expected to change in the coming years. There is a slightly higher population of males than females in the city, which is on par with numbers recorded across the country.
